Drive Is Started To Curb Delinquency As Theft Revealed

No less than a dozen local teenagers were involved with the law during the past week in what local officers described as the first step in bringing to a speedy halt a surge of petty crimes and curfew violations.

Two juveniles, 15 and 16, were being held for trial as suspects in the burglary of the Oil City Service State near Donner Lake recently. Sheriff Wayne Brown and Undersheriff Frank Gallino were called into the case by Deputies Roy Waters and Emery Lander and working on slim evidence obtained confessions and restored most of the $103 stolen.

Using shrewd detective methods, the officers questioned the two suspects and learned how the crime was accomplished. They were led to a spot near Crandall's sawmill where the money was cached in an old inner tube. From this secret store, the boys had been taking sums as needed, but more than $80 was found.

Held As Drunks

Six other teen-agers, 14, 15 and 16 years of age, were seized in a raid near the old airport, four miles east of here where a drinking party was in progress. Lander said the six admitted taking three bottles of whiskey from a local store which was being used in the party. All six were intoxicated, Lander said. They were charged with being intoxicated and violating the county curfew ordinance.

Four other juveniles were picked up for questioning and released by Lander and Waters.

Floyd Ponds, county probation officer, was scheduled to arrive here this week to make further investigations but Lander was emphatic in the statement that these recent apprehensions is only the beginning.

"The curfew ordinance," he said, "will be strictly enforced from now on. We have tried to reason with the youngsters and parents, but this method is getting us no where."

He added that it is not the intent of the officers to be tough, but that they will be strict and all parents as well as their children are asked to cooperate to prevent serious trouble from developing in the community.

Poulsen Discusses Squaw Difficulties

Speaking before the Sierra Nevada Sportswriters and Broadcasters Association at Reno Tuesday, Wayne Poulsen, principal landowner at Squaw Valley, site of the 1960 Winter Olympic games, discussed his stand in opposing eminent domain and other plans proposed by the organizing committee.

The speaker told of his development of the valley and plans for its future.

He emphasized the fact that eminent domain procedure would be very unlikely as most of the points of difference between him and the State of California have been ironed out and that only three issues remain unsettled.

These, he said include the location of a sewer disposal plant, a parking lot and a ski runoff. It is hoped to resolve these differences in a friedly manner immediately after the California Legislature passes SB 1774 giving the state right of eminent domain.

Poulsen charged that in the beginning of the planning he was advised that none of his property would be required. Later, he explained, maps showed that this was not so and that considerable of the area he owns should be needed. This arose after a decision to make the facilities permanent and assign them to the state park division for future use.

Bay Bridge Given Official Approval In State Assembly

Hope Looms Bright As Bill Proceeds On Closing Days of Session

The possibility that the long-needed bridge to span the mouth of Emerald Bay may be constructed earlier than had been expected was seen today with the announcement that the Assembly Revenue and Taxation Committee approved the esnate-passed bill providing funds.

The bill would appropriate $2,000,000 to start construction of the span with the money coming from the highway fund.

The measure, introduced and carried through the senate by Senator Swift Berry of El Dorado County, now goes to the ways and means committee.

Since the legislature adjourns next week, it is anticipated by proponents of the measure that it will receive speedy approval in both houses and be signed by Gov. Goodwin J. Knight. This will provide for construction prior to the 1960 Winter Olympic games when it is expected all available highways into the area will be taxed to capacity.

The span would also provide a year-around highway around Lake Tahoe and thus increase the economy of the region and enhance the beauty of the west side of the lake.

The strongest opposition to the bridge has been voiced by the division of beaches and parks through Director Newton B. Drury and a few conservation groups, far removed from the area, who charge the beauty of the bay will be spoiled by a bridge.

LIGHTNING CAUSES SIXTH FIRE IN AREA

Three hold-over lightning fires were battled by the U.S. Forest Service crews this week, bringing the season's total number of fires in the district to six. All were confined to less than a quarter of an acre, Henry Tocallini, dispatcher for the forest service, said.

SUNBEAMS

By WALTER M. BARRETT

Recently everyone was talking, and some were even taking steps, to determine the feasibility of incorporating the community. For the past few weeks nothing has been heard nor done to further this project and we wonder if it will follow the lead of many other good intentions. We believe that either incorporation or some other form of self-government is now necessary and is becoming more and more needed. Our county officers are concerned with county affairs and cannot be expected to devote the time necessary to are problems of any single community. We are fast being placed in a position where we must handle our local questions locally and if this can be done without incorporating someone better come up with the idea. If incorporation is the answer, then the work should be continued and not allowed to be sidetracked through apathy.

Two Killed As Cars Crash Headon In West End Of Town

Hospital Escapee Dies; Two Are Hurt As Speed Is Blamed

Two people met violent death in a headon automobile collision at the McIver turn in the west section of Truckee shortly after midnight Saturday. Two others were injured, one critically.

Sgt. Frank Snyder of the California Highway Patrol, said a car operated by F. W. Michael, 25, Napa, rounded the turn at a high rate of speed, crossed the center line and crashed into a west-bound car driven by George W. Sleep, 67, Grass Valley.

Sleep, the only occupant of his car, was killed as was Miss Joan Robinson, 23, San Francisco.

The owner of the second car, Robert Medow, 25, Napa, suffered only minor injuries but Michael was in critical condition in a Reno hospital.

Officers said their investigation revealed Miss Robinson and Michael, both escapees from the Napa State Hospital, were en route to Reno to be married and had employed Medow to drive them to the Nevada city. Considerable intoxicating liquor was found in the Medow car, officers said.

It was estimated the Napa car was traveling at a speed in excess of 70 miles an hour. The Sleep vehicle was hurled back a distance of 50 feet by the terrific impact.

Patrolmen Martin Sturcke and Ray Carpenter assisted Sergeant Snyder in the investigation.

Sleep, a native of Grass Valley, was well known here where he represented a Colfax car distributor in this area.

Final Official Act To Assure Games Expected Shortly

Assembly Ways and Means Committee Swiftly Gives O.K.

The final hurdle in the legislative contest to secure the 1960 Winter Olympic games for Squaw Valley will be crossed today or Friday when SB1774 goes onto the floor of the state assembly for final action.

The measure passed the important assembly ways and means committee unanimously Monday evening in a meeting at Sacramento. The only objections were raised by Samuel Shenk, attorney for Mr and Mrs. Wayne Poulsen and by Mrs. Adelaide Johnson, representing the Squaw Valley Property Owners Association. The latter told the committee her group had "always supported the games, the money is OK and we are not opposing that part of the bill."

Mrs. Johnson's only opposition was that the land and facilities for the games will be taken over by the state division of beaches and parks at the conclusion of the 1960 program. It was feared that the division might attempt to increase the land area and turn the valley into a picnic area.

Senator Harold Johnson of Roseville presented the argument for the bill's passage and was supported by Charles R. Blyth, chairman of the California Olympic Commission, Assemblyman Caspar W. Weinberger of San Francisco and Assemblyman Bruce F. Allen of San Jose joined in moving the bill from the committee with a favorable recommendation.

Gov. Goodwin J. Knight has backed the bill and the program since its inception and is expected to sign the measure immediately when it reaches his desk.

Bids will be opened for the first phase of the actual construction next Thursday in San Francisco and work is expected to be started by July 1. Twenty-seven major contractors have applied for plans.

Aside from an additional $2,990,000 required to make the facilities permanent, the bill includes a limited right of eminent domain to permit acquisition of a relatively few acres still needed if they cannot be obtained by negotiation. Mrs. Johnson said statements of State Park Chief Newton Drury had aroused fear that when the State Olympic Commission goes out of business the state park commission would "take everything from mountain wall to mountain wall."

"We'll take care of Mr. Drury," interjected Assemblyman Frank Lanterman of La Canada.

VALUABLE BOAT IS STOLEN AT DONNER

Boatowners have been requested by local officers to take their craft from the water and keep them locked up when not in use.

No trace has been found, Deputy Sheriff Emery Lander reports.

The haul was valued at more than $1200.

County Official To Seek Aid In Local Progress Potential

At least one county official has taken a realisic view of the potential facing the eastern section of Nevada County, and while this view may be shared with others, Charles R. Kitts, county assessor, has appealed to the board of supervisors to prepare.

In requesting additional funds for the conduct of his office, Kitts advised the board in part as follows:

"We have an obligation in eastern Nevada County in this respect that we must meet. In the immediate future under the stimulus of the winter Olympics eastern Nevada County will experience a development which will change for all time the Donner-Truckee area as we know it. This is its natural heritage expedited by an event of world-wide interest.

"We are lacking in information we will be called upon to provide for potential investors, buyers and allied fields. General information we should have upon questions without number can and will be predicated. At the moment we are lacking in maps that would be of help to the state highway department and which would facilitate their efforts to realign and 4-lane trans-continental U. S. 40 within a time limit.

"Lasst but by no means least, we have the problem of values in eastern Nevada County. Land and facilities are limited and bidding will be high. It would seem imperative that we keep a firm grasp upon reality in our concept of values for tax purposes.

"Values will reach a high point with the Games and will decline somewhat with thei rend, however I can find no precedent to indicate values will decline to anywhere near their present levels. We must consider increasing values but on a sound basis that can be maintained under a new level of normalcy to the end that those agencies and districts whose budgets are predicted on area assessments do not find themselves suddenly over-extended financially. It will be necessary for me to spend a great deal of time in the eastern area of the county over the next year. One of my staff will be required in that area during the same period. For these reasons, I have requested additions to my staff."

Art Sather of Auburn has opened the family summer home in Homewood, next to Homewood Hotel, for the season. Mrs. Sather planned to join him by the middle of this week.

* * *

The Norman Mayfields of Tahoe City entertained relatives over the weekend, guests including Norman's younger brother, V. L. Mayfield and wife of Sacramento, former residents of Denver. On Monday the visitor was accompanied on a fishing trip on the lake by Expert Waldo Gross of Lake Forest, their catch most successful with a total of seven fine mackinaw, the largest tipping the scales at 10 pounds. Lloyd Nicholson of Turlock, nephew of Mrs. Mayfield, and his wife, also enjoyed the weekend here.

* * *

June 5th is the date scheduled for the arrival at their lakeshore summer home in the Mirimar Tract of Mr. and Mrs. Bud Scott and boys, Nip and Skip. They wintered at Carmel as is their custom.

* * *

Mr. and Mrs. Sam Goss plan to move their trailer home from Lake Forest on Saturday of this week to the yard of their new home in the Bittencourt Tract in town. Sam will continue to work on the inside finish of the two bedroom residence which boasts all the most modern conveniences, including radiant heat for the floors throughout. Della, who passed her 73rd birthday on April 13th, has been ailing for the past few weeks because of her heart but reports she is feeling better.

* * *

The David McBrides opened informally their new nursery business on Highway 89 across from Holiday Park Trailer Court, on Sunday last, and report a good day's business. Their early stock already includes bedding plants, shrubs, garden tools and supplies and seeds. They will also conduct a planting service for the accommodation of localites.

* * *

The Leonard Parsons of Yuba City visited the Jeannette Mitchell home Sunday.

Miss Evelyn Gastineau has returned to Woodland following two weeks service at the Tahoe City business office of Pacific Telephone Company.

* * *

Mr. and Mrs. John Flagg were in town briefly last week from Reno but plan to pick up their mail and inspect their Tahoe Park home. They returned to Reno but plan to arrive for the summer here soon.

* * *

The community should be more than a little grateful to Constable Harry Johanson who has worked for weeks (gratis) cleaning up the quaint little cemetery, Trail's End —above the golf links. On Thursday many visitors remarked upon the care given the little pine-shaded plot where newly graveled walks and iron survey stakes are an innovation.

We must have safe drinking water. There are many emergency sources of drinking water in your home that you can use if you must. To be on the safe side, however, you should store some water for drinking purposes only. Glass jugs with tight fitting covers or stoppers make good storage containers, provided they have been washed clean with soap and water and rinsed thoroughly.

Canned fruit juices are a good source of liquids for drinking purposes in an emergency, provided the containers are undamaged. Unless the refrigerator itself was damaged by blast it would protect the contents against radioactive dust or mist. You could also drink the melted ice cubes in the trays. The water in your hotwater tank can be used for drinking purposes if you run short. But keep your hotwater tank free from rust and sediment by flushing it every three months.

GATES CLOSED

TAHOE CITY—With all gates closed, the level of Lake Tahoe Monday stood at 6228.92 feet. Summer weather has arrived in the area with the temperature varying between a low of 37 and a high of 76 during the week. No precipitation has been recorded since Memorial Day and that only .09 of an inch resulting from a thunder storm.

ONLY FOUR APPEAR FO RHEARING ON ANNEXATION PLAN

TAHOE CITY—Four property owners were present at the legally advertised hearing last Friday night to express their favor of being included in the Tahoe City Utility District. The four represented a small tract northeast of town which contains in all 31 lots.

Director C. W. Vernon announced that in spite of the poor attendance at the hearing the annexation will be approved this week since there were no objections received. Financing of the $30,000 project is still under study, Vernon says. Both state and county officers have long urged annexation to relieve a bad septic tank condition.

Besides the regular directors of the PUD, Paul Chamberlain, attorney for the district; Randolph DeWante, project engineer; Bennett T. Karoly, state sanitary engineer and David Thom, Placer County sanitation officer, attended the meeting in official capacity.

HUNTING LAWS ARE OUTLINED AT MEET OF COMMISSIONERS

SACRAMENTO (CNS)—The California Fish and Game Commission, in a relatively quiet meeting, has adopted hunting regulations, seasons and bag limits for 1957.

The principal controversies to develop in the session concerned boundary lines between the various season areas.

The commission voted to exclude all of Tulare County from the early packer Sierra season, September 14-October 27, after an appearance by Roger Moore, of the Tulare County Board of Supervisors and representatives of six sportsmen's organizations in the area.

Last year the county also had opposed the early opening and, when the commission declined to delay the opening, closed the county for one week by county ordinance.

The commission refused a request of Los Angeles County sportsmen's groups to include a northern section of Los Angeles County, bordering Kern and San Bernardino Counties, in the inland Sierra season.

While the commission had announced its intention to stage a September 14-October 20 early Sierra season, the date of closing was changed to October 27 after a number of protestants appeared.

Under regulations adopted, the three deer seasons would be:

Early: August 3-September 15; general inland: September 21-October 27; early high Sierra (counties of Inyo, Mono and portions of Madera and Fresno) September 14-October 27.

Bag and possession limits were the same as 1956, except the dividing line between the one buck and two buck season in Siskiyou County shall be U.S. 99 instead of U.S. 97.

The pheasant season was set for November 16-December 1. The northern bag limit remained at 10 per season, including one hen, with a daily limit of two birds on November 16 and 17, and four birds thereafter. The bag and possession limit is 10 pheasants of either sex in Monterey, San Luis Obispo, Kern, San Bernardino, Mono, Inyo, Santa Barbara, Ventura, Los Angeles, Orange, Riverside, San Diego and Imperial.

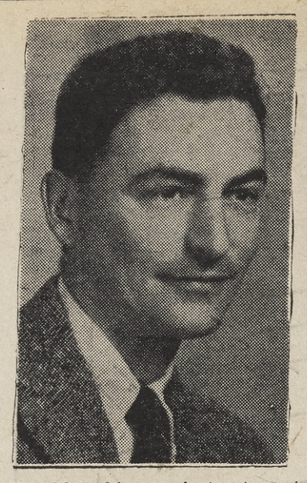
The quail seasons, for valley, mountain and desert varieties, was set from November 2-December 31, in Amador, Alpine, Alameda, Butte, Calaveras, Contra Costa, Colusa, Del Norte, El Dorado, Glenn, Humboldt, Lake, Mendocino, Marin, Monterey, Napa, Nevada, Placer, Sacramento, San Francisco, San Mateo, San Joaquin, San Benito, Santa Clara, Santa Cruz, Sierra, Solano, Sonoma, Sutter, Tehama, Trinity, Yolo, Yuba and portions of Siskiyou and Shasta counties.

The season was set at November 2-December 15 in Modoc, Lassen, Plumas and portions of Siskiyou and Shasta counties. The balance of the state season is November 16-December 31. Bag and possession limit is eight per day in the aggregate of all species.

A chukar partridge season was set from November 16-December 31, with a limit of four, in Mono, Inyo, San Bernardino, Riverside, Imperial, San Diego, Orange, Los Angeles, Ventura, Kings and portions of San Luis Obispo, Santa Barbara, Fresno and Kern counties.

No changes were made in rabbit seasons but the limit was increased from four to five. The commission refused a request of Tuolumne County that no rabbit season be held this year.

Other seasons generally were the same as last year. The commission officially set dates for public hearings to consider some 11 special hunts for taking of antlerless deer, during and after the regular season.



Harold Rubin, an instructor at Sierra College, has been notified he was awarded a J. W. Fulbright scholarship by the department of state to teach in Groningen, Holland, during the school year 1957-1958.

Rubin recently was transferred from the old district to the new Sierra Junior College which began operation July 1. Harold Weaver, president, states he will be recommended for a leave of absence to accept the offer.

His employment in Holland calls for his appearance there on September 1. He will teach English and American history.

The Rubins came here to the junior college from Redlands in 1951.

GOVERNOR RAPS ACTION ON RAISES

SACRAMENTO (CNS) — Gov. Goodwin J. Knight sharply criticized the legislature today for its refusal so far to authorize additional salaries for directors and key men in various state departments.

The governor said that some time ago, he appointed a committee to secure a new state director of mental hygiene.

The committee so far, he said, "has interviewed 37, top-flight men," throughout the United States, and not one of those interviewed has been interested in the $18,000-a-year job.

"They put it very bluntly," the governor said. "They want to come to California, but not at that kind of money we have to offer them.

"It is no waste of public funds to provide legitimate increases for directors of departments, and it is misleading the people to say that such increases are raids on the public treasury."

The governor said he has been advised the city of Los Angeles is trying to hire one of his staff members, and also one of his directors, by offering substantially larger salaries."

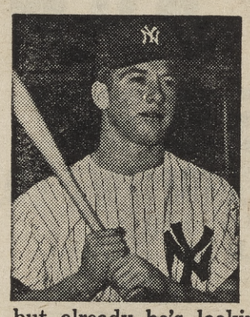
Most valuable player offers valuable advice about Savings Bonds!



Mickey Mantle's big bat won him the American League's Triple Batting Crown last year and unanimous choice by the nation's sports writers as his league's most valuable player.

This young Oklahoman figures to have many more great years in the majors, but already he's looking beyond his playing days, planning for his family's future with regular savings.

Mickey says, "From personal experience, I know that the guy who comes through *regularly* means the most to himself and his team. I've learned the same lesson about savings. Buying U. S. Bonds regularly helps win the game of security.

"Millions of sports fans can be star players in the game of security by joining and staying on Payroll Savings where they work."

Good advice for the long haul from a long ball hitter.

For most of us, Payroll Savings offer the easiest, surest way to save. And the time to start is now. All you do is sign the application form in the payroll office where you work. Select the amount to be set aside for your Bonds each payday. Then your saving is done for you. And each time you've accumulated enough, a Bond is purchased in your name.

You keep adding to your Bonds through Payroll Savings and your Bonds keep earning interest for you. It's a sure way to make a little deduction add up to a lot of security.

So don't put off saving another day. Sign up for Payroll Savings where you work—today. Or start buying Bonds regularly where you bank.

Part of Every American's Savings Belongs in U. S. Savings Bonds.

Fishing

Ned Malla pulled in off the lake with a beautiful trout, two and a half feet long and weighing 12½ pounds. It sure was a beauty. Ned seems to be the star fisherman in these parts. At least he never has to brag about the one that got away.

Golfing

At last the Brockway Golf Course is open. The course is in better shape than at any previous opening and it is well patronized, too.

Boating

The beautiful lake is a picture today—not only the lake itself but the boats skimming along with the sirens wailing. It is indeed a sign that summer is here.

Horse Back Riding

Yet another popular sport is here for the enjoyment of our locals as well as our good visitors. Quite a familiar sight to see pop taking the offsprings for a ride on horseback and some of them can show pop a few tricks, too.

Weather

Yes, indeed, this Saturday afternoon is really beautiful. The thunder and rain storms have cleared the weather picture and at 4 p. m. the temperature is 73 degrees and real balmy.

Swimming

It is really worth while putting those swimming pools in at the resorts. One can drive along the highway and see the patrons enjoying the sunshine and taking a dip once in a while. This is particularly true of the beauty that the Larry Ludlows have opened. By the end of the week there will be a few more open which will add to the beauty of the lake shore.

All Summer Long

Looking out the window, I see that the Harrisons —Sam and Audrey—have arrived. At last their dreams have come true, they will be here for the whole summer. Not a more happy couple anywhere on the lake, except us to see them.

Open

Bucky Harris of the North Shore Club tells us that the club will be open on the 7th of June and will remain open all summer.

New Apartment

Oh, yes, brother George Harrison has built a beautiful apartment on to his home on the Brockway hill. He purchased the home last fall.

Left

Ella Blake and her son, Lloyd, left for Richmond last Monday after renting their two nice homes on the golf course road and in a few weeks they intend to make a trip to Alaska to visit her son.

Gift Shop

The L .P Waters (Waters of Tahoe) are opening their Ceramic Gift Shop situated at the foot of the Brockway hill on Saturday, June 8th. See ad. They had their son, Bryan, and family for a few days over the Memorial Day holidays and with them was their daughter, Debbie and young son, Jeffrey. Byron manages a ceramic manufacturing plant at West Covina in southern California where they have been for some years. We sure wish the seniors lots of success in their new venture at the lake.

Justs Visiting

Franklin Tuttle, assistant district attorney of Placer County, was up for a couple of days over the weekend, with Mrs. Tuttle and family also along. They are looking forward to a vacation here during July or August.

Protection

We of the North Tahoe area are fortunate in having a good sheriff in the person of William A Scott and also a board of supervisors that realize the necessity of an efficient law enforcement agency. This area, including Truckee finds that it is a dire necessity to be well protected, what with juvenile problems and the many itinerant workers who will be coming in. The North Tahoe area has three deputies sheriff, two constables and two highway patrolmen. The personnel are Constables Dick Lavery and Harry Johanson, Deputies Sheriff Bud Rabska, Angelo Chiaratti and Jerry Rapisarda; Highway Patrolmen Tom Sheehan and E. R. Meixner.

Local Shriners will join nearly three-quarter of a million members of the order in the observance of the 35th anniversary of National Shrine Hospital Day set for Sunday, June 9th.

Gov. Goodwin J. Knight, a member of Ben Ali Temple in Sacramento, has issued a proclamation urging the citizenry to participate by visiting the Shrine Hospital in San Francisco or attending church.

The event will be marked by announcement from pulpits of hundreds of churches in northern California.

The first Shriners Hospital for Crippled Children was built in 1922 and since then 16 other hospitals have been added in this country, Canada and Mexico. They provide treatment for more than 20,000 children annually and since the first hospital was established more than $50,000,000 has been expended for their care.

The hospitals draw no line on race, creed or color in their admission of patients. The movement has been termed "The World's Greatest Philanthropy."

A stalwart array, I would say.

Bright Lights

More bright lights adorn the highway as Neon signs are going up right and left. They sure help to decorate the streets. I see Red Waddell has opened up his frostie shop and doing a good business on this hot weekend. I see, too, that Charle White, our young building contractor, has arrived at his home on the short cut. He spent the past winter in southern California.

Short Stay

Saw our pal, Bobby and Mrs. Vernon, woh were managers at the Tahoe Biltmore Hotel for the past three years. They are only up for a brief stay.

Fish Derby

A whole lot of young people are taking advantage of the fish derby. Remember, all youngsters up to 14 may take part. You may fish from shore or from a pier. There will be wonderful prizes to those bringing in the heaviest fish. You still have time to enroll so go to either the Tahoe Sportsman at Kings Beach or Harry's Store at Tahoe City.

Home, Sweet Home

George and June Mason returned from Los Angeles where they had quite a stay, but as George says, he just had to come back to make sure of their bread and butter. They are at the Biltmore where George is an executive.

Juveniles

The parents are going to have to prove their point that their sons or daughters can't do wrong. The authorities are going to bear down on the juvenile delinquents and their parents alike. Cooperation of the mothers and fathers is positively necessary if this condition is to be corrected. This past week a couple of boys—both had broken their parole—were brought into court. One was savage, and really so, almost beat up on a deputy sheriff and did his best to beat up on the judge. Nice thing, huh? Now they are cooling their toes in the Auburn jail. It was necessary to handcuff them in court. This kind of thing must be stopped, or what next?

Baccalaureate

The Baccalauerate services held in the high school gymnasium last Sunday night was wonderful. The band and senior chorus, led by James Pringle, added to the affair. The address was presented by Rev. Patrick J. O'Neill and it was very thrilling for those who will graduate tonight. After the exercises, a wonderful dinner was served at Crystal Bay where they made merry.

Pioneer Visits

Had a wonderful visit with Mrs. S. H. Barnum, one of the pioneers of North Tahoe and her daughter and son i nlaw, Mr. and Mrs. Robert R. Maurer who have a home in Kings Beach. They made a very short stay but hope to be back shortly. They just loved our beautiful clear weather.

"We Were Amazed"
Says CAR LIFE,
The Family Auto Magazine

We were amazed as we drove the Special four-door hardtop, to find that an automobile could be completely changed yet retain so much of its former appearance and character. The 1957 models have all the familiar, solid Buick virtues.

THE ABOVE brief clipping tells you worlds about the '57 Buick.

It tells you we went all out to make this car completely new—yet we didn't sacrifice a single Buick virtue.

So you still get that unmistakable Buick styling.

You still get that big-car room and comfort and that solid Buick quality.

But you also get so complete a change in the vitals of this car that the driving of it is a wondrous new experience.

You get a brilliant brand of performance that's different from anything else that goes on four wheels.

Words won't describe it. Telling you there's an all-new engine, an instant new Dynaflow,* a completely new power train—none of that will convey this news to you.

What you have to do is get in this car and drive it. Drive it around the block, through town, out on the highway. Actually *feel* what happens when you press the gas pedal, turn the steering wheel, touch those powerful new brakes.

Then—and not till then—will you know why folks call this "the dream car *to drive.*"

The best advice we can give you, by far, is this: ***Ask your dealer for a trial run today.***

**New Advanced Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on Roadmaster, Super and Century — optional at modest extra cost on the Special. Safety-Buzzer is standard on Roadmaster, optional at extra cost on other Series.*

NEWS NOTES FROM TAHOE

By Naomi McLane
(Tahoe City, Box 711. Ph. 246-J)

Nice Weather

How can one not mention the weather on days like these? It would be practically rude not to! They have all the gold and blue and green that childhood memories have—only these are really real. How lucky our children are to have such days to store up—and how lucky we are too. We strung up an old hammock on our lost Saturday and have decided to give up building. We'll just get two or three more hammocks and maybe build a tree house if the robins and grosbeaks will not object.

Important Dates

As director for this area of the Placer County T.B. and Health Association, Mrs. Marie Henry announces the following important date: On Thursday, June 13, the Placer County Tuberculosis mobile unit will be in Tahoe City at the Community Center. It will be open 10 to 12 in the morning and from 3:30 to 7:30 that evening. The next day, June 14, the unit will go on to Kings Beach. Volunteers for duty at the unit at Tahoe City are members of the Women's Club, the Mesdames Warren Porter, Norman Mayfield, Myrle Rose, Jay Shontz, Bill Bechdolt, Enrico Giannini and Malcolm Fox. These mobile units over the nation have done much to stem the incidence of tuberculosis. If you haven't had a lung checkup in the last year, have it this week.

In New Home

Mr. and Mrs. Ivan Wilson have moved into their new home in Tahoe Park. Ivan has built this in his spare time over the last two years. It is right next door to Mr. and Mrs. Ed Wilson. The Bill Cannons are moving into the Wilson house in Lake Forest.

Over the weekend Carol Wilson from Sacramento State, visited her parents and Jim Silverman, a fellow student, accompanied her. Nancy Bergman, daughter of Mrs. Emily Bergman, was a guest of Doug Wilson at the junior-senior prom.

Has Operation

Word from Carson City tells that Donna Porter, daughter of Mr. and Mrs. Max Porter, has undergone surgery of the throat. Donna, as many friends here will remember that the family moved to the Nevada City about three years ago. Porter is with the telephone company.

Recital Held

Mrs. Wendell Dunn, piano teacher, held a delightful recital in her home the other afternoon. Danelle Pomin played "Flow Gently Sweet Afton" and "Safety First"; Patsy Cooke followed with "Sweet and Low"; a duet, "Cradle Song," was played by Patsy and Ruth Ann Dunn; Ruth Ann, alone, played the "Prince and Princess"; and Jayne Shontz brought the program to a close with the "Watchman Song." Refreshments were served to the pianists, their mothers and other guests by Mrs. Dunn. The Dunns are making a flying trip to Idaho. They will be gone only a week.

In Hospital

Leatrice Burmer is doing well at Tahoe Forest Hospital and the boys look forward to her return in about 10 days.

New Address

Several school friends have asked for the Cincotta boy's address. They are settled now at 417 Namahana street, Honolulu, 15, T.H.

Pack Meeting

The Cub Scout year ended for the season with a fine pack meeting. Chris Burmer, Cubmaster, chairmaned the program. Several awards were given. Among those to receive them were Chris Beavers, Greg Moore, Don Bury, Tommy Ruhkala, Don Stowe, Dick Neilsen, Marty Spitsen, Chris Burmer, and Howard Cincotta who was not there to claim his. Part of the program consisted of a skit by Den 3 depicting the damage foolish campers can do. Mrs. Clifford Plew gave a brief explanation of the tall board her husband had made for her den and the boys of Mrs. Ernest Marier's Den led the flag ceremony. Mrs. Solveig Beavers played the piano and led the boys in several rousing songs. Jack Stowe of the State Beaches and Parks brought a film of Hopalong Cassidy's telling the story of Smokey, the Bear, which the boys enjoyed very much.

Hospital Patient

We are sorry to report that Bruce Wright is in the hospital. It is hoped that he need not stay too long.

Birthdates

Several birthdays were celebrated this past week. Bro Shontz turned seven on May 28. Eric Larsen, Mike Burmer, Tommy Carnell, Jimmy Caulkett, Tommy Gregg and Mike Hewitt all helped him turn the day at an after school party at the home of his parents, Mr. and Mrs. Jay Shontz. Bro's sister, Jayne, and his cousin, Danelle Pomin, helped Beccy as hostesses for the day.

Brownies Hike

Karen McBride became nine and celebrated with all 15 of her Brownie friends on a hike after school. Mrs. Billie Jones and her niece, Sheila, helped Chick McBride with the entertainment for the little troupe. Ice cream bars and cup cakes made up the hiking refreshments. Butterflies were caught by several of the group in their butterfly nets. Susan Wright and Christine Litke caught the most.

Barbecue

Ronnie Riggs, son of Mrs. Jack Sailers, also turned nine this week. A barbecue supper in the yard was served to Breezie and Stevie Cross, Leslie, Diane and Karen McBride, Jerry and Janet Jorgensen and to Ronnie's older brother, Victor Riggs.

New Nursery

The nursery division of the Tahoe Tree Company opened officially this weekend and their ad may be seen in another part of the Sierra Sun. Dave and Chick McBride have worked very hard to get this attractive venture underway. Dave's parents, Mr. and Mrs. Wright L. McBride, have been up from their Pasadena home for the last several days. They return this week.

From Taft

Mr. and Mrs. Norman Crouse have returned from a weekend visit to Taft, their former home. Crouse was in the auto and insurance business there but has retired and is building a new home in the Highlands just east of Tahoe City. They plan to live year round here. At the moment they are staying at the Lake Chalets Motel.

Gives Talk

The Rev. Dave Jones, for many years a missionary to Honduras, Central America, gave a most interesting talk Sunday evening at the Community Center about his work. He and his wife who is the daughter of Mr. and Mrs. R. Welch of Meeks Bay and Orinda, are home on a six-months furlough. Jones will study for two months at Stanford where he will take work leading to a radio minister in the mission field.

Bible Church

The Rev. L. Karutz with his wife and four children will begin independent interdenominational Bible church services Sunday, June 9. The worship service will be the Community Hall from 2 to 3 p.m. A Bible Study Hour will meet just before at 1 p.m. All are most welcome to attend. Karvtz is a native of Sebastopol and attended school in Sacramento. Mrs. Karutz is originally from Stockton.

Takes Holiday

Mrs. Earl Yeager is taking a two-week holiday with her children, Steve, Peggy and Rebecca. They will attend two graduations, one of a niece in Avenal and the other of a nephew in Santa Maria. Margaret was born in Templeton and so will make several visits along the central coast and valley.

Return To States

The Marvin Whites return to California this week. They have not decided where to settle but we are rooting for Tahoe.

Housing Problem

Howard and Dean Taylor and their little three-year-old, Judy, are looking for a place to live. Howard is working for Kilner but the problem of housing is a very real one.

New Home

Bob and Helen Hewitt and their four boys have found a home in Tahoe Park where they will live year round.

WORK PROGRESSING ON LONG OIL LINE

Work on installing the oil pipeline for the Southern Pacific Company between the bay area and Fallon, Nev., is progressing rapidly through this area and scores of men are employed on the project.

The J. E. Young Pipeline Company is installing the line from Fallon to Donner Summit and the Engineers Limited Pipeline Co. is operating jointly with Youngs to bring the line together near the summit.

The ditch, to hold a 10-inch line, is being buried nearly six feet under ground and when completed two huge buster pumps will be installed to keep the oil being transported under 1000 pounds pressure.

Crews are scattered throughout the region, some in the vicinity of Truckee and Verdi andothers over the mountain. Offices are being maintained in Truckee and at Soda Springs.

The pipeline when ready will transport oil and gasoline between the coast and Fallon.

PARKER STARTS ON DETOUR FOR U.S. 40

H. Earl Parker, Inc., of Marysville began work this morning on the detour from near Boca to Floriston presuming his low bid will be awarded the contract for this project, Alan S. Hart announced in Marysville. The initial work consists of clearing the right-of-way.

Because the Sierran construction season is limited, the Marysville contractor has chosen to take advantage of favorable weather conditions to commence his operations.

The detour, being constructed at a cost of $472,794 will permit the construction of a four-lane freeway next summer without serious traffic delays on this major transcontinental route.

Lost Purse Returned In Test Of Honesty Here

Faith in the honesty of their fellowman was recently renewed for Mrs. Warren Lincoln and several doubting friends of Kalamazoo, Michigan, when her purse containing a sum of money was returned to her after she left it at Donner Trading Post near a telephone booth.

Mrs. Lincoln wrote the Sierra Sun that while enroute on an excursion trip to this vicinity, she left the purse, not discovering its loss until some time later. After inaccurately addressing a card to the local store the property, intact was promptly returned to the eastern visitor.

TAHOE ROTARY WILL AID LAKE LEAGUERS

TAHOE CITY—The Little Baseball league, reorganized by Erine Marier of Tahoe City will be supplied with caps, sweaters and batter's headbands by the Rotary Club of Tahoe City.

Marier appeared before the club at a recent meeting at the invitation of a club member to tell of the reorganization and needs of the 15 young players who had been organized two years ago by Jack Wilson, who has left town.

At the Rotary Club meeting at Tahoe Inn last Tuesday night, George Day was a guest speaker telling of his experiences with the occupation forces in Japan. He told of his 13 years experiences in the U.S. Army, his over two years of training including the Japanese language for the three years he served in Japan. Day praised the home life of the Japanese who, he said, has no problem of juvenile delinquency.

He said the greatest insult to a Japanese is to call him a beggar because there are no beggars in Japan. The meeting lasted overtime while Day answered many questions. Warren Porter was program chairman.

Thirty-three members attended the meeting and there were five visiting Rotarians with two guests. President Steve Korich announced that June 4 will be the last night meeting. Beginning June 11 the club will meet for luncheon at 12:15.
